AUDREY JUSTINE RUTH V. LLAMAS

San Juan City, Metro Manila | +63 994 922 9355 | audreyllamas2603@gmail.com | Portfolio

PROFESSIONAL SUMMARY

I believe good work means more than just completing tasks. It's about taking initiative, solving problems, and making a difference through what I do. As a Computer Science graduate with experience in graphic design, social media content creation, virtual assistance, and business research, I bring both creativity and organization to the table. I don't claim to know everything, but I'm resourceful, adaptable, and willing to figure things out rather than wait for answers. Whether I'm creating visuals or supporting daily operations, my goal is simple: deliver work I can stand behind and become someone a team can genuinely rely on. I'm not just looking for a job; I'm looking for a chance to prove my value through the quality of my work, not just my words.

PROFESSIONAL EXPERIENCE

Social Media & Administrative Virtual Assistant

Private Client | Freelance, Remote | August 2024 – September 2026

- Designed Canva graphics, promotional posts, and customer feedback highlights.
- Wrote captions and organized social media content for online promotions.
- Prepared Word documents, business letters, and administrative materials.

Treatment Note Assistant

Project-Based Documentation Support | Remote | Apr 2026 – Sep 2026

- Review confidential treatment records to ensure accurate and complete documentation.
- Identify missing details and inconsistencies to support timely corrections.
- Maintain documentation trackers to monitor pending records and organize workflows.

Data Research and Project Support Intern

Red Circle Global | Remote | July – September 2024 | 200 Hours

- Researched potential clients and verified business information to support lead generation.
- Organized prospect data in Google Sheets to maintain accurate, structured records.
- Prepared Word/PDF documents and task trackers to streamline business documentation.
- Coordinated with the CEO and supported basic web design and AI-related tasks to complete project requirements.
